

## INFLUENZA CAUSES WORK FOR CHARITIES

### REAL SITUATION BETTER FOR CITY'S POOR.

#### Make Distress This Year From More Poverty, as Jobs Are Plentiful.

The real situation this year is much better than it was last, but the work of the Associated Charities is not as heavy. In place of the troubles which worried the city last winter, the influenza has been and proved just what occurred. As cases which occurred in the second wave of the epidemic have, however, the strain on the charitable organization is being reduced.

The Associated Charities itself does not furnish Christmas cheer for the poverty-stricken, except as agents for the distribution of the various Christmas packages to the churches of the city and various institutions. The number is not expected to increase much this year, although the association can take care of as many dinners as are given to it to distribute.

#### SERVICES AT ST. PAUL

Services of St. Thomas Day on Saturday morning at 10 o'clock. The service will be observed at St. Paul's Episcopal church. There will be no service on Thursday of this week. The usual Sunday service will be held. Christmas day will be an early celebration at 10 o'clock in the morning. The 10 o'clock Eucharist Christmas day has been announced by notices sent to members of St. Paul's congregation. The pastor announces that, if possible, on the saint's days following Christmas day there will be a daily celebration at 10 o'clock, namely: St. Stephen, Dec. 26; St. John, Dec. 27; St. James, Dec. 28; St. Peter, Dec. 29; St. Paul, Dec. 30; St. Andrew, Dec. 31. On Sunday after Christmas there will be an offering taken by counsel from the bishop of the diocese for the relief of general missions.

#### KOSMOS ENDS YEAR

Members Mrs. L. M. Russell for Superintendent of County Schools. The last meeting of the year of the Kosmos club was held Tuesday afternoon in the clubroom of the court. The program began with "The Unseen World," and closed with "The Unseen World." The program was led by Mrs. L. M. Russell, who was president emerita of Kosmos club. It was decided to invite the women's organizations of the city to unite in this service.

## WILL THE NEXT WOMEN'S SLOGAN BE "MAKE THE CLUB SAFE FOR HUBBY?"

### First Pacific Woman Professional Takes Up Clubs. Sport Gossip.

Mrs. Courtney Dunn-Webb has arrived at Pasadena, Cal., to take charge of the Huntington and Altadena links. She is heralded as the first female golf instructor of the Pacific coast country, and incidentally, the best woman player to tackle the San Francisco Golf and Country club links, making a card of 81 on them.

Do doubt Mrs. Dunn-Webb can handle the job. She's a golfer right, and is descended from a family of such. But think what a satisfaction will be lost to the novice who is taking a lesson, when, after slicing a drive at a 45-degree angle, he must refrain from the expression of a choice line of comeback by her presence. Beginners cannot learn the whole game under a woman, for they cannot express themselves properly. And "expression" is a part of golf.

Then what will the wives say? Henry, who always has had trouble explaining why he is so late to dinner after an afternoon at the links, will find himself in a predicament indeed if the fair spouse knows there is a woman at the club.

If women golf professionals become accepted thing it is hard to anticipate the results. It might grow to such an extent that a "Make-the-Club-Safe-for-Hubby" movement would have a hard time of it.

The retiring president of the Southern league, Baugh, has this to

Walker. A very interesting paper on Christmas carols was read by Mrs. Leaning Clark, and very beautifully illustrated by Mrs. L. G. Walker, singing the carols.

Mrs. L. J. Henderson, in a talk on "Laws Concerning Women and Children," said that women in industry must have better laws safeguarding the working conditions of women. "Is There a Santa Claus?" was the title of a reading given by Mrs. W. A. Weaver.

Mrs. Ed Davidson, in a paper on national holidays, emphasized the fact that as a nation we have no national holiday except by special declaration of the president, such as Thanksgiving.

The report of the hospital work given by Mrs. Clarence Steward, who spoke of the plans to bring Christmas cheer to the soldiers.

Miss Sarah Frazier, in a very strong address, presented the name of Mrs. L. M. Russell as a candidate for the place of county superintendent of schools. The club voted most heartily to endorse Mrs. Russell.

It was announced that a memorial service would be held Friday afternoon at 3 o'clock in the court clubroom for Mrs. J. G. Richardson, who was president emerita of Kosmos club. It was decided to invite the women's organizations of the city to unite in this service.

Mrs. L. E. Brown, president at the meeting. Mrs. R. L. Justice, of Greensboro, N. C., chairman of social service of the North Carolina federation, was introduced to the club and spoke of the fame of the club women of Tennessee having gone out into other states and having encouraged the women of other states to larger and greater things.

McConnell Erwin to be presented in Recital by Stewart Chapter, U. D. C.

McConnell Erwin, son of Mr. and Mrs. Sam Erwin, of this city, and a student of the Conservatory of Music of Cincinnati, will be heard in a musical recital Saturday afternoon at the Hotel Patten.

This gifted musician is presented under the auspices of the Gen. A. P. Stewart chapter, Daughters of the Confederacy. Miss Margaret Shallday and musicians from the army post will assist on the program.

NANCY WARD MEETING  
The Nancy Ward chapter, Daughters of the Revolution, will meet Thursday afternoon at 3 o'clock with Miss Mary Dowler, 421 High street.

MRS. RILEY ILL  
Mrs. G. H. Riley, who has been seriously ill of influenza at Erlanger hospital, is reported some better. She is the wife of Lieut. Riley, of Camp Greenleaf, their home being in

STOMACH UPSET?  
Pape's Diapiesin at once ends sourness, gas, acidity, indigestion.

When meals upset you and you belch gas, acids and undigested food. When you have lumps of indigestion pain or any distress in stomach you can get relief instantly—No waiting!

As soon as you eat a tablet of Pape's Diapiesin all the indigestion, pain, stoppage, gases, acidity, heartburn, flatulence and dyspepsia vanish. Pape's Diapiesin tablets cost very little at drug stores. (Adv.)

CARTOONS OF FAMILY  
Col. Dickinson's Clever Gift to Daughter in Keokuk.

Col. L. T. Dickinson has ready one of his annual Christmas gifts to his daughter, a group of clever cartoons, each encased in a brown folder like a photograph, and bearing a rhyme in gold letters on the cover. Each one plays on the foibles and characteristics of an individual of his daughter's family circle that are cleverly enough done for an outsider even to laugh over. For twenty years these little family cartoons have been a gift from the colonel to Mrs. George Collingsworth Tucker, formerly Miss Kate Dickinson, of Chattanooga. And each year she uses them as placards at the family Christmas dinner. Her home is now in Keokuk, Ia.

One of the best of the cartoons shows a woman conductor frowning at Mrs. Rox, a family friend of the Tuckers who was slow in boarding the new-fangled car. The legend is, "Get a move on yer." On the cover the following ditty appears:

"The war had its horrors,  
The war had its sorrows,  
The war left many regrets,  
But none of the shocks  
Shocked dear Mistress Rox  
Like the sight of those motorettes."

SHAKESPEAR CLUB TO MEET  
The regular meeting of the Shakespeare club will be held Thursday morning at 11 o'clock at the Y. W. S. A.

## MEN'S SERVICE LEAGUE HEARS IMPROMPTU TALK

### DINNER AT ST. PAUL'S PARISH HOUSE.

#### Col. Williamson, of Camp Greenleaf, Says Disease Is More Fatal Than Bullets.

Members of the Men's Service League of St. Paul's Episcopal church were the guests at a dinner Monday night at the parish house. The dinner was prepared and served by the ladies of the church. Later in the evening an informal program of after-dinner talks were given. These were of a most interesting nature and were impromptu and were delivered with a freedom from formality which the league has sought to cultivate in establishing social interest.

This was the last meeting of the year, and while many members are either in the service or in governmental work, the attendance was probably rather low over some time. In speaking of the signing of the armistice he said, "If the people of the United States think they were happy, they didn't know, for the happiness was over there. The old village was awake in a few minutes, and the peace had been declared. The streets were marching up and down the streets, playing 'Dixie' and 'Back Home in Tennessee'."

Ensign Williams Crutchfield and Lieut. Thomas Crutchfield will return home from France. Ensign Crutchfield has just returned from France.

Lieut. Earl Morgan, of the Fourth infantry, now in France, writes his mother, Mrs. May C. Morgan, that he is now out of the hospital and has been transferred to the replacement group at Paris.

Col. Williamson declared that disease had always been more fatal to the men of the army than bullets. He stated that the present proportion in mortality among the American soldiers was 1 per cent. killed in battle, in some cases the percentage had been as high as 10 per cent. killed in battle. The object of the medical service, he explained, was to keep the men from getting sick and disease, rather than to cure after the men had been stricken.

Under the direction of Col. Williamson, the first field laboratory for medical research work ever organized in the United States, was established in the field and among actual living conditions of great numbers of men.

## CHRISTMAS TREE FOR ORPHANS' HOME FRIDAY

### JUNIOR CIVIC LEAGUE PLANS EVENT.

#### White Christmas and Pageant Features Program at Junior High School.

A community Christmas tree for Eastside will be given Friday evening at Junior High under the direction of the Junior Civic League. This affair, known as the "White Christmas," is an annual affair and is always one of the largest events taking place at the Yuletide season.

The White Christmas, which has been observed by most of the churches and schools the past few years, carries out the idea of giving instead of receiving. At this time each guest is asked to bring a gift wrapped in white paper, and these will later be given to the Vine Street Orphans' home. Estates are preferred, but it is said that any one wishing to contribute coal may do so, as a committee equipped with "whitewash and brush" has been appointed to paint the coal, carrying out the White Christmas.

Students of the school will decorate the tree in white paper and lights, while the electrical decorations of the tree have been contributed by the W. C. Tea company. An electrical feature, "The Star of Bethlehem," has been donated by Fred Cantrell company. A beautiful tree was presented to the school by Corby Bros., well known truck farmers, east of Missionary ridge.

A pageant, "The Cradle Scene," will be presented by sixty pupils. Miss Clara Pindell is directing the program. This includes only a small portion of the students, but a plan has been worked out which gives every scholar a part in the evening's program.

All citizens of Eastside are asked to be present and bring a gift for the orphans.

Prof. N. C. Carr is chairman of the entertainment committee. A. E. Merriam is president of the league and J. Livingston White is secretary and treasurer.

The regular Friday evening entertainment will be resumed Dec. 27.

SCHLESINGER-NORRIS.  
A surprise wedding is that of Miss Anna Norris, daughter of Mr. and Mrs. E. P. Norris, and Julius Page Schlesinger, which was solemnized Monday at 6 p.m. in the study of the Central Presbyterian church. Dr. T. S. McCallie officiated.

The bride was attired in a tailored suit of tan cloth with trimmings of seal, worn with black hat and shoes. Her flowers were pink roses and ferns.

Schlesinger is a talented musician and was at one time connected with the Cadek conservatory. Mr. Schlesinger is the son of Mr. and Mrs. J. N. Schlesinger, of North Chattanooga.

The couple has gone on a wedding trip to New Orleans and other southern points. They will also visit the bride's parents in Texas during the holidays.

FOR COLD AND GRIPPE  
DOCTORS FIND REMEDY  
Physicians and druggists are elated over the fact that they have at last found a genuine and dependable remedy for colds, sore throat and grippe. For years they have depended chiefly upon the old style calomel, which is certainly fine, but unfortunately many people would not take it because of its nauseating and dangerous qualities.

Now that the pharmaceutical chemists have perfected a harmless calomel, called "Calotabs" whose medicinal virtues are vastly improved, the doctors and druggists are claiming that Calotabs are the ideal remedy to abort a cold over night and cut short an attack of sore throat or grippe. They are also finding it most effective as the first step in the treatment of pneumonia. Calotabs on the tongue at bed time with a swallow of water—that's all. No salts, no nausea, no slightest interference with your eating or your work and pleasure. The next morning your cold has vanished and your whole system is purified and refreshed. Calotabs are sold only in original sealed packages; price thirty-five cents. Your druggist recommends and guarantees them by refunding the price if you are not delighted. (Adv.)
